September 2005

From the Head Lug Nut by Dave Martin

Hi All,

Had a good meeting in Diamond Bar on the 20th. Seems like it's been months since I'd seen the rest of the gang... oh yeah... it had been months! Summertime is always a continuous trade off between family and cars. Both must be taken care of and, if we're really fortunate, we can combine the two.

And so we come to Club Sandwich, Laughlin, Nevada. This is one of those great events that combine family with a quick dash across the desert in our cars which, let's face it, we're all looking forward to. We're set at Laughlin's Riverside Resort for the 22nd and 23rd of October with the dash across the desert to be Friday the 21st. Check out the A.H.A. website for further details as well as the meeting place and time for caravanning on Friday or you can just give Mike Dresbach a call to get more details. A fun time is guaranteed for all!

In September though we'll be visiting the Otis Chandler Museum in Oxnard, which has a superb collection of muscle cars and motorcycles on display. This museum is only open to the public 3 or 4 time per year so it's a real treat to get in. It's set for September 10th at 11am. Details are on the website or a map was included with last month's newsletter. (Ed. Note: If anyone needs another map copy, email me and I'll either email one to you, or snail mail it to you.)

Also included in this newsletter is our ballot for the 2006 Board of Directors election. I have been warning you about this so no

surprised looks now. We went through the nomination process at our last meeting and have a fairly complete ballot although we need to see some more participation from other members as there's no real competition here.

Please take the time to complete the ballot and send it into our secretary Dean Hornbacher or to any board member.

Still waiting for some more cars and articles from the club to put up on the website... Come on gang, I know you're out there somewhere.

Short and sweet this month, enough for me...

Happy Cruizing

Rumblings from the Editor's Desk by David Hartman

Well, elections are coming up! There should be a ballot in this issue, if the Board send me a list of Directors to vote for on time. Please vote for or write in your choice for these positions and mail your ballot into the address printed on the ballot. Ballots will be counted and announced at the Club Sandwich awards presentation.

Gas prices are terrible! If this trend continues, I have my doubts about making it to next year's Knott's show. I'm going to start a fund called "**The Newsletter Editor's Knott's Trip Fund**" and anyone wishing to contribute, please feel free to assist me in saving monies to make it to next year's show. I figure if I drive a nice, sedate 55 or 60, I can get another 3 or 4 miles to the gallon in gas mileage, but that means an extra day either way in driving time. So, please help a poor, destitute Newsletter Editor.

I need to point out a correction. Last month for the Club Sandwich info flyer, I printed that out at the last minute and in a hurry and slipped a bit. Around the middle of the page there are dates about a 2001 event. Just ignore that part. I was suppose to delete those lines and missed them. Sorry for any confusion it may have caused. The rest of the info is current and up to date. (At least my critics haven't pointed out any more errors to me.)

In this issue you'll find a Club Sandwich Pre-Registration form. Please fill it out and mail it to the address indicated, along with your check. This isn't required to participate in the event, but it sure helps us with planning. Besides, this way you can get a T-Shirt on order as well. Speaking of the Club Sandwich, I hope you've make your room reservations. It's a good idea to get these made and not wait until the last minute. I believe there are a limited number of rooms for our event price and, after a certain date, that price deal isn't available any longer. At least, that's how it was in the past.

I've just finished a few more add-on things for my car and have now installed them. Mostly cosmetic things,

but it does make the car look a bit nicer. I'm going to have my winter projects cut out for me. I plan to hopefully have new headlight covers made up and ready to install when I uncover the car in the spring. I have a new roll of gasket foam material and need to cut new gaskets for my rear window and headlight covers. It helps keep the dust and other junk down a bit.

Activities

For now, please read Dave Martins article for upcoming events.
